Democratic Ticket.

FOR PRESIDENT,
GROVER CLEVELAND,
OF NEW YORK.
FOR VICE PRESIDENT,
ALLAN G. THURMAN,
OF OHIO.
FOR SENATOR,
J. W. BALES.
FOR CONGRESSMAN,
T. B. AYRES.

The last Republican convention not only came out boldly for the "dollar of the daddies," but nominated a ticket which most of the organs are swift to hail as the ticket of the grand daddies.—Post Dispatch.

The people of this Republic have acquired confidence in the Democratic party, and desire its continuance in power. The country wants peace, prosperity, lower taxation, fair wages, wider markets, freer commerce and good government administered by honest men.—Governor Hill's Speech at County Democracy Meeting.

In the list of political corpses strewn along the highways and byways leading to and from the Chicago Convention may be placed the names of Fire-Alarm Foraker and Jayhawkers Ingalls—one slain by the recoil of his own mighty jaw; the other hoist by a little petard in ink intended for the use of his friend Bonebrake, chairman of the Kansas State Central Committee.—Cleveland Plain Dealer.

A member of the Republican National Committee says: "The ticket is an outrage to the Republican people of the country. How can we face the people of the West and ask them to vote for an Indiana railroad attorney and a Wall street money shark? We can't do it, and I am afraid we are whipped before the fight is begun. The Blaine people had the convention in their grip, and when they could not clear the field for their own man they administered to the party a dose of poison."

The speech of the President is a piece of patriotic oratory. It breathes the true sentiment of a man who, having been tried in the crucible and found almost perfect, aims to still further improve, that those who have trusted him may be the more happy in a better and larger confidence. "I have yielded obedience only to the Constitution and my oath of office" is no vainglorious boast coming from President Cleveland. It is a fact that the whole country recognizes and the majority of people appreciate.—Philadelphia Record.

The response of President Cleveland to the resolution of the committee was decidedly the best pronounced. He delivered his inaugural message. It is cool, collected and manly—the utterance of a man who evidently appreciates the responsibilities of his high office; of a man who assumes these responsibilities with more or less distrust of his abilities to successfully carry them out; but whose sense and conception of public duty have been so clear that he believes himself entitled to the credit of giving the country an honest and efficient administration.—Washington Critic.

Harrison is another Hayes. Like Hayes he is of old Whig ancestry and antecedents like Hayes he has a modest record of military service; like Hayes he has cut a brief and inconsiderable figure in the politics of his State; like Hayes he brushes his hair well back from a high and bulging forehead, wears a full beard, dresses usually in black or in somber shades, and presents an appearance of age and experience and flavor of respectable mediocrity which is a typical product of Western Republicanism. The countenance, the characteristics and the record of Harrison all combine vividly to recall Hayes to the public mind. He will fare as Hayes did, too, the polls, only more so; for Hayes came within a quarter of a million of votes of having a popular majority, which it will not—Constitution Globe.

Harrison is put forward as a representative of the principle of "protection." But whom is it he proposes to protect? The capitalist, not the wage earner? His zeal for protection ends at the rich man's door—it does not include the poor man's cabin. Harrison was six years in the United States Senate. As such he made a record, and by that record he will be judged. Among other bills that came before that body was one to restrict Chinese immigration—a measure to protect American workmen by excluding from our shores the hordes of cheap-labor Asiatics. Where was Senator Harrison? He was found voting against the bill! In other words, Senator Harrison voted to let the bars down so that millions of Chinese laborers might come to our shores and compete with American labor. Harrison's motto is protection—but protection to capital not to labor.—Syracuse Courier.

The Californians had a long journey homeward. During the leisure it afforded to let them ponder on the fact that, while they cast their vote for the winning candidate, they had repeatedly asserted that because of his Chinese record he could not possibly carry the Pacific coast. Like March, our California friends came in roaring and went out bleating. They came hither on a whirlwind. They go hence meek when chastened. Count California and Nevada for Cleveland and Thurman.—Chicago Times.

Since the Democrats are quite ready to go to the county on the issue of Clothing vs. Whisky, and influential Republicans like Judge Kelley propose to adjourn the Mills bill discussion until after election, why waste time in further debate on that measure in the House? Let it be put to the vote of the Representatives and passed and then, if the Republicans want to adjourn it, let them try to do so in the Senate. Why fatigue the country and spend much money in the futile debate on a question on which issue is already practically joined before the country?—New York World.

A SERIOUS CASE.
County Judge Pulliam, of Breckinridge county, shot and instantly killed James Miller, the richest man in the county. The shooting occurred in Pulliam's office, early Friday morning, and no one was present. Pulliam refuses to make any statement, but waived examining trial and went to jail. A paper in Pulliam's handwriting, setting forth that Miller had been too intimate with Mrs. Pulliam, and that the trouble had been adjusted by a payment by Miller of \$5,000 to Pulliam, was found unsigned on Pulliam's table, and on it lay the gold spectacles of Miller. The supposition is that Pulliam had prepared the paper, and when Miller refused to sign it and pay over the money, Pulliam shot him. It is said that Pulliam is short in his accounts about \$5,000, and that the trouble is a case of blackmail. Nothing so horrible and filled with such "pure cussedness" has occurred in Kentucky for many a day.

K. P. A.
The annual meeting of the Kentucky Press Association was held in the Opera-house, Danville, on last Wednesday and Thursday, July 4th and 5th. Col. E. Polk Johnson, of the Courier-Journal, was elected President; Dr. John D. Woods, of the Frankfort Capital, Vice President; Ben Harrison, of the Henderson News, Treasurer; W. P. Walton, of the Star Journal, Secretary; John G. Craddock, of the Paris Kentucky Citizen, Poet; E. G. Logan, of the Louisville Times, Orator.

The next place of meeting will be Owensboro.

The program announced in last week's CLIMAX, was followed, with few exceptions. The most interesting and satisfactory. About seventy-five members were present.

The people of Danville received the association with open arms. On Wednesday night they spread a grand banquet at the D. & D. hotel. Mayor John W. Yerkes delivered the address of welcome. His effort was a happy one, and made the visiting editors feel at home. Short speeches were made by Ex-President James W. Hopper, Mr. Emmett Logan, Mr. J. Soule Smith and Col. E. Polk Johnson.

"On Thursday forenoon the members of the association were furnished chambers and driven over the city including the race course, where an exhibition trot was witnessed.

The Danville editors, Messrs. John R. Mayo, W. B. Nichols, and Joe Moore, were uncaring in their attentions to the association. Also were Messrs. W. S. Rowland, Robert Hann, W. G. Dunlap and M. McDowell.

The editor of THE CLIMAX found many former residents of Madison county, who now reside in and near Danville: Paul Argo and wife—nee Chenault—Mr. Robert Hann and wife, Mr. S. S. Rowland and family, Mr. Morris Long and wife, Mr. Richard Cobb, Jr., and wife, Mr. Hann and wife. Mr. Hann will soon remove to Denton, Texas.

On Thursday the Louisville and Nashville Railroad placed a special train, under charge of Mr. John Milliken, traveling Passenger Agent, at the disposal of the "gang" and the whole party went like Fox Robert's misters, "whooping and yelling" to Pineville. The road is an excellent one, and that time was made. John Milliken is a fast old boy—so even when he used to edit the Franklin Patriot, and the older he gets the swifter he grows—and does things up on short notice and in the latest artistic manner. On the way, the train halted ten minutes at Barboursville, where the populace with a brass band had assembled, and Mr. Jno. D. Black made a speech of welcome, and extended an invitation to spend the day. Pineville is a new town at the famous old Cumberland Ford, some miles east of the mouth of Cumberland Gap, and on Daniel Boone's noted trail, or the "Wilderness Road." The town has one of the handsomest hotels in Kentucky, and thoroughly equipped. The 67 editors were feasted in three quarters of an hour by the watch. A splendid iron bridge has been built from the town across the river to the depot. The court-house and jail are to surpass anything of the kind in the mountains. Eason & Wiggins and Tom Branner, of Richmond, are the contractors. Mr. J. C. Parrish, of Richmond, is a prominent merchant in Pineville. Prof. John R. Proctor, Gen. Fayette Hewitt, Governor Buckner, and Mr. Charles Dudley Warner, of Harper's Magazine, whom we met on the way home, say that Pineville has a great future. Mr. Warner and Col. C. E. Batts match like two eggs in appearance. Mr. Colgan, editor of the Pineville Messenger, let down the bars and gave up the town to the Association. Pineville owes much to "Governor" Jim Givens, of Louisville, formerly a student of Central University, for its growth. The "Governor" has bought property at Beattyville, and gone to Europe to organize some sort of a gigantic scheme.

Frankfort voted to subscribe \$100,000 to the Kentucky Midland Railroad. For this subscription the city is to receive \$100,000 in stock and \$100,000 in first mortgage bonds. The vote was 1,011 for to 10 against.

At Mayville, last week, Lucy Rice shot and killed Barbara Ballinger. Jealousy.

AT THE CAPITAL.
[Correspondence CLIMAX.]
WASHINGTON, D. C., July 9, 1888.
The results obtained by the police census of Washington, which has just been completed, shows the population of the city to be 227,000, or an increase of 42,000 since the census of 1880, the population being given at that time as 185,000. Probably few cities in the country, not excepting the numerous Western cities of far greater commercial importance, have equalled the substantial growth of the National Capital during the past few years, and the numerous buildings that are now in course of erection in all sections of the city, the various improvements of both public and private nature which are in progress at the present time, indicate that the city has not yet reached the height of its prosperity.

There was no celebration of the Fourth of July by the general public in Washington, but the day was observed by individuals with the usual amount of enthusiasm. Nearly every available bit of woodland within reach of the city was filled with picnic parties, while excursion boats and trains were filled with passengers. The Oldest Inhabitants' Association observed the day in their usual patriotic style. Secretary Whitney's country residence, the Grasslands, was besieged by several hundred employees of the Navy Department and their families. The party was taken from the city in coaches which the Secretary had provided, and were served with a bounteous lunch.

In response to an invitation from the officers in charge of the National Sausagefest the President and Mrs. Cleveland attended the concert given by that society in the Academy of Music in Baltimore on Tuesday evening last. The Presidential party included President and Mrs. Cleveland, Rev. and Mrs. Cleveland, Mrs. Folsom and Col. Lamont. They were provided with a special train and the run to Baltimore was made in the remarkably short time of forty minutes. The party was enthusiastically received at Baltimore, and upon entering the private boxes reserved for them in the Academy of Music they were greeted by the 1,500 singers present.

The tariff bill has been under discussion during the House of Representatives and considerable progress has been made. About twenty days have been thus far consumed in discussion, the paragraphs of the bill, and at the same rate of progress it will require ninety days to complete the discussion of the bill. It is generally thought, however, that the question will be expedited in the future, and the friends of the bill anticipate their expectation of securing its passage before the end of the month.

PARTISAN BLACKGUARDISM.
[Springfield (Mass.) Republican.]
Gen. Harrison made a very modest reference to his part in the war, when he spoke to his army comrades on Monday night. "My not conspicuous, but loyal service," he said. "That is all there is of it. He won no distinction, but he did his duty, as so many thousands of men who never rose from the ranks. He deserves honor, as any soldier may, but it will not do to try making him out as a hero. Republicanism would not march through Philadelphia streets with banners bearing such inscriptions as 'No snuffing in ours.' We want 'no snuffing' rubbers," and the Philadelphia Press would denounce him by illustrating the insult by diagrams. "The old bandana" is a harmless popular catchword; it indicates in Mr. Thurman the indulgence in a habit now out of fashion, but which, in days not so long past was the common habit of the gentlemen. When it is spoken of in connection with Thurman, it calls to mind the fact that he is an old man, one of a generation of strong statesmanship, a fellow of Sumner and Wilson, of Seward and Chase, and of his peer. It is descending to the level of street Arabs to treat any old man with personal indignity, and the worse when it is an old man whose character and position are such as Allen G. Thurman's.

So with the ludicrously low lampoons which the New York Tribune paraded on its editorial pages. It may safely be said that no paper which pretends to respectability ever aped the bar-room buffoon so closely as this organ of Blaineism has done during the last few weeks in its treatment of the President of the United States. Wit that is based upon physical peculiarities is the lowest form of wit, and implies a lack of argument in itself. Mr. Cleveland's neck is a family peculiarity, as much so as the Hapsburg lip, for instance; he inherits it from an ancestor numbering among notable men, and it does not hinder its owner from wearing about as a head that holds as strong a will and as sagacious and clear-sighted an intellect as have been known in the presidency since the death of Abraham Lincoln. Yet the Tribune can give a column to the most despicable mockery of nothing else than Mr. Cleveland's neck. This sort of thing does not impose upon decent people. Whoever finds it, any feeble weapon, or the paper, or the party that clothes it, with an ineffaceable shame.

J. N. Menefee was over at Kingville last week and tells us that he is enjoying quite a boom; which is being increased by J. B. McKee's immense crop of peaches. He has 25,000 trees and for several days he has been shipping large quantities of splendid ripe ones at \$4 a bushel. The trees are bending down under the luscious load, and Mr. McKee, who is an Ohioan and knows how to make all the edges cut, will realize a handsome sum. All kinds of fruit are plentiful in the section, while there was never seen such a crop of blackberries. The woods are full of land lizards as well as workmen who are getting out and shipping vast amounts of staves, shingles and other lumber.—Stanford Journal.

Harper For July.
Everything in this number merits careful attention, and will get it from a literary and artistic point of view, as well as in the manner of mechanical execution. All the work contained between the covers is of the very best. The frontispiece, representing a situation in Haggard's "Malwa's Revenge," is one of the sixty illustrations in the issue.

The first article describes life in the United States Academy at Annapolis, as seen by Lieutenant Kelley and is illustrated handsomely from drawings by R. F. Zogbaum. All the salient features of the cadet's experience, afloat and ashore, are enumerated in a lively way, and with an enthusiasm which indicates that the writer enjoyed it all when he was at Annapolis. Mr. Zogbaum's eight illustrations add much to the enjoyment of the reader. He catches the spirit of naval life admirably.

"A Midsummer Trip to the West Indies," a splendid illustrated article, Lafacade Hearn, describes the writer's summer trip through the tropical Caribbean or Windward Islands, which separate the Caribbean Sea from the broad Atlantic. It abounds in vivid descriptions of scenery in the tropics, and in interesting facts concerning tropical people. The twelve illustrations give an added charm to the article. A second paper will appear in the August number.

"The Great American Desert," by Frank H. Spearman, is an article devoted to a description of the fertility and charms of the States of Kansas and Nebraska—once supposed to be about as barren spots as could be found in North America. Now they blossom like the rose, and flourish like the green-bay tree. Mr. Spearman, among other things, describes the operation of the land laws and the methods of eastern and western farming and Western lands. These are subjects now of much interest in the East. The article is profusely illustrated, and is also supplied with an excellent map.

Charles Dudley Warner, in his fifth paper on Great West, discusses Columbus, Indianapolis, and Springfield. The people of these capitals and their ideas are frankly and fairly criticized. Not everything that the traveler saw was good, but the greater portion of it was so. Mr. Warner furnishes many valuable statistics concerning one of the chief of the National Capitol. Treasures seem to have been intelligently carried on by gratifying results.

Under the direction of W. M. Flinders Petrie the reader of "The Grand Tour—Three Thousand Years Ago" is taken to visit the ancient world (3,000 years ago) at the time the various races were becoming civilized began to have relations with one another. The thirteen illustrations provided for the article convey an excellent idea of the looks of these oldest inhabitants, and the text supplies much missing information concerning the origin of the Egyptians.

In "Malwa's Revenge," H. Rider Haggard introduces old Allan Quatermain to the public once more in a glorious elephant hunt in Africa, with other romantic adventures. More than a full page is devoted to the exciting and well illustrated story, which furnishes an excuse for much fascinating fighting. Part II (and the end of this story is reserved for the August number. "In Far Lachaber," by William Black, and "Annie Kilburn," by W. D. Howells, do not contain a dull line. The charmingly told dialect story, "Old Mine" and "Sweetheart," is by H. S. Edwards.

A. E. Abbey has illustrated beautifully the old English song, "Jockey to the Fair," and the leader will linger over his admirable work. The other poems, "Monocyllides" by W. C. Richards and James Herbert Morse's "Commerce with the Skies" fill up the poetical measure of this number outside the Drawer.

The Departments abound in timely topics. Mr. Curtis says kind things of the actors who lately composed the Wallace's Company, ventures some criticisms on the Academy exhibition, and speaks in favor of sitting on the house-tops in summer. Mr. Howells disposes (in a perfectly proper way) of the late Mat-theus Arnold's criticisms of America; and Charles Dudley Warner is humorous and graceful, and at the same time full of good sense.

Cincinnati's Centennial Exposition Opens in a Blaze of Fireworks.

At 9 o'clock, July 4th, the gates of the Exposition were thrown open, and early visitors began to pour in. They found the machinery idle, and it was not to start until the magic of lightning controlled by that venerable lady—the oldest living first lady of the land—from her home in Nashville, Tenn., should give the signal. At 11 o'clock, the formal opening exercises began in Music Hall, which is reserved for a public resting place and amusement hall. The stage was filled with the May Festival Orchestra, the Cincinnati orchestra. The entrance of Gov. Foraker; Gov. Thayer, of Nebraska; Gov. Gray, of Indiana; Lieut. Gov. Bryan, of Kentucky; Gov. Beaver, of Pennsylvania, with their brilliant retinues; the Hon. John Sherman and Hon. Benjamin Butterworth, was signalled by repeated bursts of applause as the several dignitaries were recognized. About this time, a thunder storm broke over the city, clearing the atmosphere, and cooling it to a most comfortable degree. After a choral concert by the Rev. George B. Thayer, of Cincinnati, Gov. Foraker made the welcoming address. It was now but a few minutes to 12 o'clock, and President Allison announced that they would wait for the signal from Mrs. Polk to start the machinery. Suddenly a gong in the hall sounded. A ripple of applause answered the signal, and Gov. Foraker explained to the audience that the gong had been sounded by electricity touched off by the signal from Mrs. Polk at her home in Nashville. He proposed three hearty Buckeye cheers expressive of the appreciation of the estimable woman, and of her participation in these ceremonies. The cheers were given, the men rising and swinging their hats. Then Mrs. Mary Allison, the ten-year old daughter of President James Allison, stepped to the side of the stage and, pressing an electric button, gave twelve signals on the gong, and put in motion the ponderous machinery of the Exposition. When her task had been gracefully finished her father kissed her, and amid the applause of the assemblage presented her to the distinguished guests. The Hallehualah Chorus fully followed.

President Allison then formally declared the Exposition open. After this brief address were made by the gentlemen named, Govs. Thayer, Gray and Beaver. Lieut. Gov. Bryan, Hon. John Sherman, and the ceremonies were ended. The great street parade started promptly at 2:30, and moved without serious delay over a six-mile route. It required two hours to pass a given point, and was witnessed throughout by delighted crowds. The sun and cooler atmosphere gave to participants and spectators a pleasant afternoon's entertainment. At Nashville, wires were run into Polk place and the telegraph instrument set upon an old-fashioned mosaic marble table which had been presented to the late President. The reply was sent and a telegram was received stating that Gov. Foraker was addressing the audience and introducing Governors from other States. Then came the word, "ready," and Mrs. Polk placed the fingers of her right hand upon the electric light switch, and the entire concourse of people arose and cheered amid the waving of flags and banners. It was a thrilling scene. Ices were served and the guests were delightfully entertained by Mrs. Polk's beautiful niece Sadie, Miss Kitty Chatham and Mrs. G. W. Fall. Mrs. Polk made each guest good-bye. A photograph was taken of the scene.

The orchard grass seed harvest is now about ready. Mr. Thos. M. Lillard, who has given careful attention to the crop for over 30 years, reports that he will bear a yield of about 15 bushels of clean seed of acre. Seed of this quality is sold at \$1.50 per bushel, but he thinks it will go to \$1.25. He says that he has found it an exceedingly profitable crop at any price that he has sold since he has been cultivating it. But it requires very careful attention, for if the seed is not harvested clean the price is cut fully one-half by the dealer.—Danville Advocate.

Absolutely Pure.
This powder never varies. A marvel of purity, softness, and richness. More economical than the ordinary kinds, and makes the hair grow. It keeps the hair soft and silken, preserves its color, prevents it from falling, and, if the hair has become weak or thin, promotes a new growth.

"To restore the original color of my hair, which had turned prematurely gray, I used only Ayer's Hair Vigor with entire success. I cheerfully testify to the efficacy of this preparation."—Mrs. P. H. Davidson, Alexandria, La.

"I was afflicted some three years with scalp disease. My hair was falling out, and what remained turned gray. I was induced to try Ayer's Hair Vigor, and in a few weeks the disease in my scalp disappeared, and my hair resumed its original color."—(Rev.) S. S. Sims, St. Bernard, La.

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I tried many remedies, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was wonderful. I could not believe it, but I grew to be as soft and heavy as I ever had, and of a natural color, and Army set."—J. H. Pratt, Spafford, Texas.

The Penn Mutual.

The attention of the public is respectfully called to the PENN MUTUAL LIFE INSURANCE COMPANY of Philadelphia. The PENN MUTUAL issues all approved forms of Life, Endowment Policies, Surplus being available in reduction of second and succeeding payments, such returns of surplus have reduced the average cost of insurance much below the figure of many first-class competitors. Its "Non-Forfeiture" and "Extension" systems are the most liberal extant, full reserve being applied at lapse to extension of original sum insured, or to the purchase of "Paid Up" insurance as may be desired.

At Policies non-forfeitable, and after two years incontestable. The PENN is unequalled in financial security. Without security there is no insurance. Mere volume of assets gives no protection. The real test is applied by insurance writers, and the authorities in State Insurance Departments, viz: The ratio of assets to liabilities. In this respect the PENN stands at the head of the list having now \$124 of well secured assets for every \$100 of liability—present or contingent. Give us a call before insuring elsewhere.

70 Kings, \$1,000. Elsewhere in this issue of THE CLIMAX is found the premium list of the Kirksville Fair. The fair will occur on Friday and Saturday, July 27th and 28th. The list presents seventy rings with \$1,000 in premiums—and don't you forget the good dinner that always goes with the Kirksville Fair.

Real Estate Transfers. A. K. & C. K. Doty to Susan A. Doty 125 acres, \$387. A. K. Doty to Susan A. Doty, 24 acres, \$175.

S. D. Parrish to Alvy Stevens, town lot in Elliston, exchange. Powell, L. C. Garnett to Evans and Mrs. Low lot in Richmond, \$21,000.

The Camp Meeting. Twenty persons went from Richmond, on last Sunday, to Park's Hill camp meeting. Sam Jones preached and there was good music and a big rain, to say nothing of the beautiful dinner. The K. C. sold round trip tickets at low rates, and will do so again next Sunday. The train leaves Richmond at 7 o'clock.

A Good Beginning. The first meeting of the Richmond Building and Loan Corporation, for the purpose of paying in assessments on shares, was held on last Saturday. Of the fifty share holders representing 400 shares, forty-nine made payments. This is a fine start, and indications point to continued good work.

Base-Ball. The Deppens, of Louisville, champions of Kentucky, and the Shamrocks, champions of Ohio, will play two games on college campus, Richmond, to-day and to-morrow, July 11 and 12. Games called at 4 o'clock. Admission to all 50 cents, children under 12 years 25 cents. These clubs met once this season and played a great game, score standing in favor of Shamrocks 3 to 0. Both teams are composed of the finest players in the country.

Teachers Examined. Twenty-seven white teachers were examined on last Friday by the County Board of Education, and granted certificates to teach. The questions are prepared by the Superintendent of Education, subject to the examination of the board. The teachers as a class were better than any who have preceded them. The colored teachers will be examined next Friday. The board consists of County Superintendent, Mrs. A. M. Milon, County Attorney J. A. Sullivan, and ex-Attorney A. J. Reed.

For Jailor. Elsewhere in this issue of THE CLIMAX is the announcement of Mr. Thomas Ferrell as a candidate for Jailor of Madison county, subject to the action of the Democratic party. Mr. Ferrell would make a good Jailor, and has a time or two kept off the track to give others a chance, and to prevent a disturbance from springing up in the party. He will make a good one.

Squire John Hill is announced in this week's CLIMAX as a candidate for jailor of Madison county, subject to the action of the Democratic party. Squire Hill has demonstrated by his management of the Poor House, his ability and disposition to properly care for the public interests. He enters the race for election.

Wheat Pool. On last Saturday a number of farmers, about 40, met at Red House, this county, and formed a wheat pool, representing 20,000 to 25,000 bushels. Mrs. Mary B. Clay was made chairman, and Mr. Sandford Oldham, secretary. Messrs. Robert Boggs and Sanford Oldham were appointed a committee to negotiate with threshers. Mr. Harvey Cobb was appointed a committee to negotiate the sale of the wheat.

By this method the members of the pool expect to secure a low rate for threshing and a high rate for their wheat. The members will not be troubled with making arrangements for threshing. Samples of the wheat will be on exhibition Friday and every day thereafter at Red House, until the wheat is sold. The wheat is to be sold in one lot. A pool exists at Silver Creek also.

Convenience of Location. The location of the Cincinnati Central Buildings could not be improved upon in any manner. The new building occupies Washington Park, and another spans the canal from Twelfth to Fifteenth streets. In addition these buildings are connected with Music Hall, situated between them.

They are within ten to fifteen minutes walk from any portion of the main part of the city, accessible either by street car lines or by the numerous other conveyances. They are in easy reach of the hotels and depots, and very comfortable lodgings may be secured in the immediate neighborhood of the Exposition grounds.

The convenience of the crowded cars, or of waiting for conveyance, is thus reduced to a minimum.

The Crops. We traveled through twenty counties, last week, and can say that the crops never looked better. The grass, which was damaged somewhat in places by dry weather, is green and growing. Wheat is threshing out a good yield. The acreage everywhere seems to be above an average.

State Teachers' Association, Colored. The Colored Teachers' Association of Kentucky, tenth annual session, convened in this city at the Court-house, last Tuesday, and continued three days and nights, President C. C. Monroe, of Frankfort, in the chair. After devotional exercises the address of welcome was delivered by Rev. G. B. Miller, of this city, and responded to by Prof. John Jackson, of Frankfort, followed by excellent music. Address—'Object of the Institute and Institute work by Prof. Jas. S. Hathaway, of Berea. After enrollment and appointment of committees, adjourned.

Wednesday morning, 9 A. M., after devotional exercises, annual address by Prof. C. C. Monroe, of Frankfort. Elementary spelling and reading, conducted by Miss Mary Britten, of Lexington. Elementary arithmetic by Prof. J. M. Maxwell, of Louisville. Symposium—'What should be taught in the Public School?' Discussion led by Mr. William Jackson, of Lexington. Various resolutions adopted.

A Paris letter of Wednesday says: A brilliant wedding took place last evening at Oakwood, the home of Mr. and Mrs. Gano Hildreth. The contracting parties were Miss Ellen Hildreth, daughter of Mrs. Hildreth, and Vol. W. Ferguson, son of J. W. Ferguson, President of the Deposit Bank of this city. The attendants were Miss Fannie Buckner and Joseph Hawkins; Miss Mabelina Hawkins and Harry Clay. Elder J. S. Sweeney officiated. The bride is a most beautiful young lady and had many admirers while the groom is a young man possessed of all the traits to make one of the best husbands. Among the bridal gifts were 600 acres of blue-grass land from the groom's father, this being the amount he gives to each of his children as they marry.

Fortify the system, by the use of Ayer's Sarsaparilla, against the diseases peculiar to hot weather. This medicine induces a healthy action of the stomach, liver, and kidneys, bringing them to the accumulation of the poisons which produce disease. It.

To most children, the bare suggestion of a dose of castor oil is nauseating. When physics is necessary for the little ones, use Ayer's Cathartic Pills. They are safe and pleasant to take. Try them.

The Middle of the Year. It is plainly understood that merchants' accounts are due on the first of January and July. We therefore publish this modest reminder for the benefit of all who owe us. Business cannot be run with money—hence we respectfully request all our customers who are indebted to us to come and pay at once. This is an urgent matter with us and we trust no one will neglect to settle.

Removal. For Rent. I have removed my millinery store to my residence on Main street, where I shall be glad to see my numerous friends and customers.

The house I have heretofore occupied on Second street, is for rent.
